**SUBJECT: RETURN TO COMPLIANCE; UNDERGROUND STORAGE TANK SYSTEM AT  
FIRE STATION #26, 1145 NORTH BRAND BOULEVARD, GLENDALE**

Dear Mr. Vogeley:

The State Water Resources Control Board (State Water Board) is in receipt of documents you submitted on behalf of the City of Glendale (City) in response to our February 3, 2017 Notice of Violation (NOV). The documents demonstrate that the ongoing violations cited in the NOV have been corrected. Please be aware that the State Water Board's determination that the violations have been corrected does not preclude the State Water Board from pursuing enforcement against the City related to the violations, including the imposition of suspended penalties pursuant to the Final Consent Judgment and Permanent Injunction (Los Angeles Superior Court, Case #BC552862) or the imposition of civil penalties pursuant to section 25299 of the Health and Safety Code.

During our investigation of this matter, we noted that the Designated Operator (DO) monthly inspection report form currently used by the City does not properly document all DO inspection requirements. To ensure that all required information is documented and attached to the monthly DO inspection report form, the State Water Board recommends the City use a form similar to the following, <http://www.unidocs.org/hazmat/ust/misc/un-057.pdf>.

Sincerely,

Amantha Henkel  
Senior Environmental Scientist
